

HEALTH FOR THE STATES!!

HOLLOWAY'S PILLS.

EXTRAORDINARY CURE OF LOSS OF HEALTH, DISORDERED STOMACH, INDIGESTION AND DETERMINATION OF BLOOD TO THE HEAD.
Copy of a letter from Mr. John Lloyd, of Ew-wen, near Harlech, Merionethshire

To Professor HOLLOWAY:

Sir—I avail myself of the first opportunity of informing you, that for a very long period I was afflicted with a dangerous giddiness and frequent swannings in the head, attended by loss of appetite, disordered stomach, and generally impaired health. Every means had failed to give me any permanent relief, and at length I became so alarming that I was really afraid of going about without an attendant. In this melancholy condition I waited personally upon Mr. Hughes, Chemist, Harlech, for the purpose of consulting him as to what I had better do; he kindly recommended your Pills, I tried them without delay, and after taking them for a short time I am happy to bear testimony to their wonderful efficacy. I am now restored to perfect health, and enabled to resume my usual duties. You are at liberty to publish this letter in any way you may think proper.

I am, Sir, your obedient Servant,
June 6th, 1852. (Signed) JOHN LLOYD.

MIRACULOUS CURE OF DROPSY.
Extract of a Letter from Edward Rowley, Esq., of India
Walk, Tivoli, dated April 8th, 1852.

To Professor HOLLOWAY:

DEAR Sir—I deem it a duty I owe to you and the public at large, to inform you of a most miraculous recovery from that dreadful disease, Dropsy, and which, under God, was effected by your invaluable Pills. I was tapped five times within eight months, and skillfully treated by two medical practitioners, but could not get cured, until I had recourse to your remedy, and notwithstanding all I had undergone, this miraculous medicine cured me in the course of six weeks.

(Signed) EDWARD ROWLEY.
INFALLIBLE CURE OF A STOMACH COMPLAINT, WITH INDIGESTION AND VIOLENT HEAD-ACHES.

Extract of a Letter from Mr. S. Gowen, Chemist, of Clifton, near Bristol, dated July 14th, 1852.

To Professor HOLLOWAY:

DEAR Sir—I am requested by a Lady named Thomas, just arrived from the West Indies, to acquaint you that for a period of eight years, herself and family suffered from continual bad health, arising from disorders of the liver and stomach, Indigestion, Loss of Appetite, violent Head-aches, pains in the side, weakness and general debility, for which she consulted the most eminent men in the colony, but without any beneficial result; at last she had recourse to your invaluable Pills, which in a very short time effected so great a change for the better, that she continued them, and the whole family were restored to health and strength. Further, she desires me to say, that she has witnessed their extraordinary virtues in those complaints incidental to children, particularly in cases of Measles and Scarletina, having effected positive cures of these diseases with no other remedy.

ST. LOUIS, MO.

In introducing my Style of Hats for the Spring of 1853 I would ask especial attention to the combination it presents of the most important requisites of an article of dress, beauty and utility. It is light, yet strong; of correct proportions, and at the same time fitly adapted for a summer hat. In the manufacture of Hats, my motto is "Excellence." The richest material and the best workmanship, united with the most untiring vigilance of superintendence, cannot fail to produce a hat worthy of the master.

I have a full assortment of the finest goods in my line, comprising all that is now, rich and fashionable in Hats, Caps, Straw and Panama Goods, especially intended to meet the demands, either wholesale or retail, of a community now rapidly advancing in wealth and refinement, and those artificial wants that follow. At the same time I can sell the staple goods of the master as low as any other in St. Louis.

Having secured the agency of them for this city. This stove possesses advantages over common stoves, in thickness of the plate, and improvements in the draft. It is given up by all stove dealers and manufacturers, to be the best pattern for a descending flue, of any stove now made East or West.

This stove was patented September, 1852, and

wherever they have been used, have given general satisfaction.

This stove weighs some forty pounds more

to the number than any other stove ever brought to this city.

The plates in them are from one half to three

fourths of an inch in thickness. No. 1 weighs over

300 pounds. We warrant them all against fires.

These stoves have a Patent Hot Air Flue, which carries the heat that is generated under the fire-plate down the front part of the stove, between two thick plates to the

draft at the bottom of the stove, thereby adding great

heat to bake with on the bottom, and remedying that

which has always been a fault with stoves of a descending flue, heretofore.

The Charles Oak has one

flue and one plate more than any Air-Tight stove yet

invented. They will cook with one-half the fuel

which an ordinary stove will, and will last

for twenty-five years.
